ALLMAX CREATINE HYDROCHLORIDE CAPSULES

ALLMAX Creatine HCL (750 mg Capsules) is a convenient way to enhance your performance. Creatine HCL is a pharmaceutically-inspired delivery form that pairs Creatine with HCL to create a Creatine salt with an exceptional solubility profile. In fact, studies have found that Creatine HCL is 50X more soluble than Creatine Monohydrate. Solubility is closely associated with uptake.*

ALLMAX Creatine HCL capsules promote higher absorption and improved strength and performance, on top of no required loading phase and reduced water-retention.*
